

Tap-radio® EnOcean IP camera TF-IP-CamIV

TF-IP-CamIV Tap-radio® EnOcean IP camera

The EnOcean IP camera as Smart Home control unit receives EnOcean signals from many Eltako sensors and actuators, in particular all tap-radio® models, and permits highly encrypted access, both internally and externally, with the Eltako Wireless Building app GFA by smartphone or tablet. With motion detector. Smart Home camera.

IP camera connected to the local network via Ethernet or WiFi.

Measurements LxWxH: 60x64x130mm. With patch cable, mounting kit and 230V power adapter. Pure white glossy. Instruction for downloading the app GFA2.
